Macedonia **Nationality:** Albanian

ABOUT ME

Full-stack Developer with hands-on experience delivering production features across e-commerce, CRM, and subscription-based platforms. Strong background in React, Spring Boot, Laravel, and SQL databases, with a focus on clean code, scalable solutions, and effective problem solving. Comfortable working in team environments, adapting quickly to new technologies, and contributing to reliable, high-quality software.

EDUCATION

[2018-2022] **Graduated engineer in information sciences and computer engineering**
SS Cyril and Methodius University in Skopje, Faculty of Computer Science and Engineering

City: Skopje | **Country:** North Macedonia

WORK EXPERIENCE

[01.2023 - 01.2024] **Web developer**
PurpleDot

City: Skopje | **Country:** North Macedonia

Utilized problem-solving skills to overcome obstacles encountered during projects while maintaining professionalism under pressure. Established rapport with colleagues from diverse backgrounds, enhancing collaboration and teamwork efforts across departments. Delivered high-quality work consistently, demonstrating strong work ethic and dedication to the internship program

[01.2024 – 01.2026] **Full stack software Developer**

Worked on multiple live production systems including e-commerce platforms, CRM/ERP systems, and subscription-based applications. Responsible for developing and scaling core business functionality, third-party integrations, and payment workflows, as well as building data-driven features and complex business logic used in real customer environments. Contributed across the full development lifecycle — from feature development to production deployments via CI/CD — while collaborating closely with backend, frontend, QA, and product teams.

SKILLS

Backend Development

Backend Developer with strong experience in designing, developing, and maintaining scalable server-side applications. Comfortable working with modern frameworks, databases, and API-driven architectures, with a strong focus on clean code, performance, and security.

- **Languages & Frameworks:**

- PHP (Laravel), Java (Spring Boot), TypeScript (NestJS)

- **API Development:**

- RESTful APIs, authentication & authorization, structured backend architecture

- **Databases:**

- PostgreSQL, MySQL (design, optimization, relationships, migrations)

- **server & Hosting Environments:**

- Linux-based systems, Apache and Nginx configuration, deployment and environment management

- **DevOps & Workflow:**

- Git & GitHub, CI/CD pipelines, environment-based deployments

Frontend Development

Frontend Developer with solid experience building responsive, user-friendly web interfaces. Skilled in translating designs into clean, maintainable code while ensuring performance and usability across devices.

- **Core Technologies:**

- HTML5, CSS3, SASS, JavaScript (ES6+)

- **Frontend Frameworks & Libraries:**

- React.js, Vue.js

- **UI & styling:**

- Bootstrap, Tailwind CSS, Mantine UI, responsive layouts, modern UI practices

- **Integration:**

- API consumption, dynamic data rendering, frontend–backend communication
